

Order up!

Coffee Cart Edition

Functional Communication for AAC Users

Objectives:

What will be learn?

Purpose:

Struggle to find ways for AAC users and SSN students to see the power of communication by using their skills across settings? Order up will provide the basic steps to building a coffee cart as a new adventurous way to work on communication. Students run a staff coffee cart business practicing a variety of life and communication skills. Low to high tech AAC devices are used depending on the student. Lesson format, goal writing, and co-treating advantages will be discussed.

1. Participants will understand the basic steps/materials needed to set up a functional communication coffee cart.
 2. Participants will learn how to develop week to week lesson plans to make the coffee cart functional.
 3. Participants will learn the advantages of using a co-treating method to work on a variety of life skills.
-
